

# Secure and Accelerate Your Content Delivery

Moving your business online is the fastest way to grow customers and revenue, yet, running an online business is more complicated than it sounds. A secure web experience is more important than ever due to growing cyberattacks and threats to website security.

## Fast and Secure AgileCDN

AgileCDN accelerates content delivery to your websites, mobile apps, e-commerce stores, videos, games, SaaS products, and APIs across all devices. It provides your users with faster, more secure digital experiences, and reduces business costs.

AgileCDN offers you the choice of three secure CDN packages that suit your needs:

AgileCDN Essential	AgileCDN Professional	AgileCDN Enterprise
<p>Great for organizations or individuals that need to protect and accelerate their professional websites, web and mobile apps, or secure their blog.</p> <ul style="list-style-type: none"> <li>• 1TB of Data Transfer Out<sup>1</sup></li> <li>• http/https requests (10M)<sup>1</sup></li> <li>• Web Application Firewall</li> <li>• DDoS Protection - Layer 3&amp;4<sup>2</sup></li> <li>• 1 hour initial consultation</li> </ul>	<p>Perfect for small or medium businesses operating online that need to secure their resources and keep costs low.</p> <ul style="list-style-type: none"> <li>• 10 TB of DataTransfer Out<sup>1</sup></li> <li>• http/https requests (100M)<sup>1</sup></li> <li>• Web Application Firewall</li> <li>• Advanced DDoS Protection - Layer 3&amp;4<sup>2</sup></li> <li>• DNS by Amazon Route53</li> <li>• 2 hours initial consultation</li> <li>• 1 hour / month consultation</li> </ul>	<p>Best fit for organizations small or large with higher bandwidth and mission-critical applications that require advanced security, excellent performance and rock-solid reliability.</p> <ul style="list-style-type: none"> <li>• 25 TB of Data Transfer Out<sup>1</sup></li> <li>• http/https requests (250M)<sup>1</sup></li> <li>• Advanced Web Application Firewall</li> <li>• Advanced DDoS Protection - Layer 3&amp;4<sup>2</sup></li> <li>• DNS by Amazon Route53</li> <li>• 3 hours initial consultation</li> <li>• 2 hours / month consultation</li> <li>• POC credits</li> </ul>

1. Individual terms and conditions or AWS public pricing apply for any overuse incurred.  
2. Flow cleaning to be charged separately.

## Bolster Your Global Businesses Expansion

### Optimize Your Businesses

Achieving incredible customer or user experience results in higher conversions and revenue. Driving operational excellence increases your organization's savings. Agilewing's CDN Customize Service helps you enhance your customer experience and reduce operation costs.

#### Image Optimization

Image optimization technologies to help transform, reduce the size, and serve images at the edge.

#### Better Insights and Control

API solutions expose real-time logs and analytics, giving granular data insight for you to make business decision.

#### Protect Your Assets

Control your CDN resources through Agilewing anti-leech solution, protecting your assets and preventing un-wanted traffics.

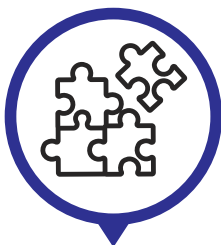

#### Reduce Cost

Agilewing preheat solution generates contents for each profile on demand at the edge. Reduces cost and provides incredible user experience.

## Safeguard Your Traffic

Agilewing Managed Security Services provides rapid protection against web application vulnerabilities, DDoS, and botnet attacks. Enforce security rules at the edge with real-time insights into suspicious traffic and the ability to update your configuration within milliseconds.

#### Effective Remediation

Not only raise the alerts but also start working to remediate problems.

#### Root Cause Analysis (RCA)

Root Cause Analysis (RCA): Perform RCA, alert management, SOP remediation, and resolution of issues remotely.

#### Fast Identification of Issues and Transparency

Review incoming alerts and log files to quickly pinpoint an issue and remediate the problem.

#### Data Security Governance and Compliance

Provide advisory and assessments on multiple compliances, such as DLP, PCI-DSS, GDPR, PDPA, OWASP 10..etc.

## WHY AGILEWING

### Fast and global

The AWS CloudFront global network has 217 PoP, and leverages the highly resilient Amazon backbone network for superior performance and availability for your end users.

### Shorten time to market; low implementation cost

No set-up or integration expenses, no hidden fees. On-boarding consultant will assist in setting up and maintaining the services.

### Predictable and affordable pricing model

We provide flexible pricing models for customers to choose from:

- Account-based services
- Event-based services

### One-stop service

With professional advisory and planning, we assure customers' CDN implementation with both security and compliance.

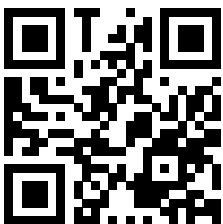

### Enterprise-grade security protection

OWASP, DDoS, Anti-Bot, credential protection.

### Always-on support

You don't have to build a new team to manage enterprise security. Agilewing provides you with 24/7 professional support with dedicated hotlines and services.

Contact Agilewing today to accelerate your global businesses expansion.
